

MARYLAND Department of Health

Board of Professional Counselors and Therapists

Updated Information Regarding Covid-19 Response

Dear Licensees, Certificate Holders, and Trainees:

On April 6, 2020, the Secretary of the Maryland Department of Health signed an Order addressing teletherapy as it pertains to Alcohol and Drug Trainees and out of state counselors and therapists who have clients currently located in Maryland.

The full text of the Order can be found here:

<https://health.maryland.gov/bopc/Documents/mdhorderbopc1.pdf>

Please read the Order carefully regarding the terms and conditions of the provision of teletherapy services by ADTs and out of state counselors and therapists during the state of emergency.

It is important to note that once the Governor lifts the state of emergency, the Order will no longer be effective. The provision of teletherapy services as permitted by the Order will cease immediately. Therefore, providers should make arrangements now for the continuation of client care once the state of emergency is lifted.

Stay well,

Kimberly B. Link, J.D.
Executive Director
